

Waste recycling

Brangeon Group has developed effective processes in order to recycle waste. In line with the **circular economy**, it fosters local collection and treatment. Our teams carry, prepare, treat or turn waste into new materials. This is the principle of recycling, **re** turning in the **cycle** of a new life.

Legend: Material Energy Reuse

Brangeon Zero waste approach, a company guideline
This approach is based on 4 principles and tends towards 100% recycling waste.

- / Source separation
- / A genuine support for collectivities & professionals waste management
- / Implementation of innovative & customized solutions
- / Local approach
